Preface

By permission of the Brandow Printing Company of Alabama N.Y. the figures given in the following pages, are almost wholly taken from "Regimental Losses in the American Civil War," by Col. William F. Fox.

Regimental Losses, a quarto volume of 595 pages, places the total deaths in the Union Armies from all causes at 359,528. This booklet gives only the number killed in battle or died of wounds. It also gives the enrollment of the Three Hundred Fighting Regiments, and their percentages of killed.

In the "Statistical Record" Capt Phisterer gives 93443 as the number of killed and died of wounds in the Union Armies during the Civil War.

"Regimental Losses" fixes the number at 110,070, from which it seems quite certain that Col. Fox has given every organization full credit for the number of its killed in battle. The figures here given have been carefully copied from, and compared with those given by Col. Fox, and are no doubt correct.

The service rendered by a regiment is usually estimated by the number of its killed in battle.

When two old soldiers meet for the first time one of the first questions asked is "How many of your regiment were killed?".

A truthful answer to that question, can be found in the following pages.

Every page of "Regimental Losses" is intensely interesting to all survivors of the Civil War, its price $8.00 places it beyond the reach of some of them, these pages are published for those who are unable to buy "Regimental Losses."

Explanation of figures, signs and letters used in giving length of service date of organization and number of killed and died of wounds.

The large figures and letters, give the number or letter of the regiment, troop, company or battery.

The small figures, 3, 6 and 9, and the letter c, at the right of the top of the large figure or letter, gives the number of months or days for which the organization enlisted. The figures 1. and 2. and the signs o and –o, at the left of the top of the large figure, give the number of years or time for which the organization enlisted or re-enlisted; thus- $^{o}1_{3}$ 3 months 65^{c}_{100} days $^{o}34^{6}$ 6 months $^{o}18^{9}$ 9 months $^{o}29_{1}$ 1 year $^{2}35$ 2 years. $^{3}49$ 3 years $^{-o}8$ reenlisted for the war.

The first small figures from 1, to 12, at the bottom of, and following the large number or letter, give the number of the month of organization. The first small figure from 1. to 5 following the month of organization, gives the year of organization. The figures following the year of organization give the number of killed and died of wounds, thus- $^{o}25_{6}$-1.80. 25th regiment, organized for 3 years service, in June 1861, killed and died of wounds, eighty.

Total Loss in 300. Fighting Regiments in Killed and Died of Wounds.

Officers.	Men.	Total.
2896.	46.273.	49.169.

The total enrollment of 282 of the "Three Hundred Fighting Regiments" was 435.148. an average of 1545+ per regiment. The enrollment of the other eighteen regiments is not given by Col. Fox. Of the 282 regiments of which the enrollment is given, the 9 New York Heavy Artillery is the Largest, it having an enrollment of 3.221. while the 121. Pennsylvania is the smallest, it having an enrollment of only 891.

In the winter of 1864 and spring of 1865, and after the fighting was practically ended, more than 300.000. new recruits joined the regiments at the front, thereby greatly increasing their total enrollments, and reducing their percentages of killed and died of wounds.

"Regimental Losses" gives a very complete history of each of the Three Hundred Fightin Regiments. It gives the number of killed and died of wounds in each battle in which any of the regiments suffered such loss.
